Skiplly fob for job traceability

Smilio terminals incorporate a presence sensor.

Positioning the Skiplly fob on the bottom side of our terminals allows your staff to prove their physical presence and interventions.

This accessory is made in the form of a key fob for facilitating its daily use. The Clock series are not compatible with this fob (use compatible NFC tags).

PRODUCT DESCRIPTION

The Skiplly magnetic sensor allows for many use cases with Smilio.

With this magnetic fob, it is possible to record staff attendance, secure an action, or confirm an intervention.

Weight 0,5 kg
